Anne Parmly TOXEY

Mohamed ZERARKA
The Oued-Souf Traditional Urban Centres: an (a)Typical XVith Century Urban Planning Model.
This volume collects the proceedings of the International Seminar The Mediterranean Medina, that took place in the School of Architecture at Pescara from 17th to 19th of June 2004.

The seminar promoted by the Department IDEA (Infrastrutture Design Engineering Architettura) of the Faculty of Architecture of Pescara and the Department ICAR (Scienze dell'Ingegneria Civile e dell'Architettura) of the Polytechnic of Bari aimed at the study of the particular physical characters and the transformation of the Mediterranean city.

The Italian Ministry of Foreign Affairs has patronized the Seminar. The publication of the Proceedings has been possible thanks to the co-financing of the MIUR, the Italian Ministry of Education, University and Research, for the year 2006.
